EDITION 5.3  
AUSTRALIAN FINE CHINA

Founded in 1921, and originally incorporated as the Calyx Porcelain and Paint Company, Trenton International's Australian Fine China brand has a century long tradition of supplying porcelain to the Australian hospitality and giftware markets. Whilst the company has had a number of name changes over the many years of its operation (Calyx, Bristile, Wembley Ware, Bristile Fine China and Australian Fine China), in 2016 Australian Fine China was purchased by, and now operates, as a brand under the Trenton International Hotel and Restaurant Supplies banner.

Today the Australian Fine China brand has an extensive range of hospitality and retail tabletop products. We distribute through a network of commercial distributors and retail agents around Australia and export to many international destinations.

Our hospitality collection offers a wide range of shapes and styles to suit many applications – from 5-Star dining through to cafés and bistros. As tabletop professionals, we can also offer a wide selection of crockery, glassware and cutlery exclusively sourced for Australia from world-renowned manufacturers. These include RAK Porcelain from Dubai, Schott Zwiesel glassware from Germany, Amefa cutlery from Europe and, most recently, Vicrila glassware from Spain.

# trenton™

Amefa is a strong international cutlery brand sold in more than 30 countries. Amefa has extensive state-of-the-art manufacturing processes for stainless steel, which produces a high quality and standard to all of their products, which, in turn, guarantees durability and lasting performance.

## Porcelite®

Porcelite has forged an enviable reputation of being able to cope with the toughest of environments and is backed by its 5-year edge chip guarantee on selected items. The Seasons range offers a cost-effective solution without compromising on quality, design or performance. All items in the Seasons range are fully vitrified and are dishwasher, microwave and freezer safe.

Delivering a vision into reality has been the success story behind RAK Porcelain growing into one of the leading manufacturers of porcelain tableware in the world. Using cutting-edge technology, the RAK Porcelain collections are designed to withstand intensive use as well as mechanical and thermal shocks inherent in the commercial hospitality industry.

by **VICRILA**

Schott Zwiesel has been setting standards for years with modern products. They are the market leader among experienced manufacturers of crystal glassware worldwide. They supply to sommeliers, wine makers, internationally acclaimed chefs and top hotels in over 120 countries. The Schott Zwiesel brand reflects this philosophy with sustainable, innovative products. They create timelessly modern designs and excellent applications for crystal glassware, which showcase the latest trends, and which are made a reality by Zwiesel Kristallglas

For over 15 years, Vicrila has been working with state-of-the-art quality methods and tools to bring to the hospitality industry a glass suited for every type of use. A full range of customer demands can be met through the Vicrila range, including a tempered glassware selection.

**Innovative, Functional and Aesthetic**

**The Design**

Designer Isabel Heubl developed Integrale with great empathy. She did so after extensive studies into the circumstances and lifestyles of people with gripping difficulties. Integrale combines exceptional design with outstanding functionality.

**The Aesthetics**

The elegant, graceful design is based on classical cutlery shapes. It looks like normal cutlery, but with a slight twist: it enables those who require assistance to eat without difficulty.

**The Quality**

Integrale is an addition to the Amefa cutlery series. It is produced from the finest quality 18/10 stainless steel, which ensures durability, an elegant patina, and lasting performance. Integrale is also dishwasher safe.

**The Function**

The bullet-shaped handle fits perfectly into the palm of the hand, making it easy to hold.

1. The flattened top of the blade facilitates applying pressure when cutting.
2. The lean transition from handle to bowl enables holding in multiple positions.
3. The light curve at the edge of the blade enables a rocking motion when cutting.
4. The elevated handle makes it easy to pick up the cutlery from flat surfaces.
5. The flattened bottom of the handle ensures the cutlery remains in place.

## Australian Fine China

The Tabletop Professionals | Since 1921

Suitable for aged care, independent living and healthcare facilities, these selected items are an excellent choice for any food service provider. We have adapted our designs to make our pieces more user-friendly for those who struggle with standard products. Wider handles and sturdier bases are just some of the advantages to our healthcare ranges.

The Warranty only applies if the product supplied has been used:

- in accordance with Trenton International's Care and Maintenance instructions which are available on our website; and
- with reasonable care and under normal commercial conditions.

**Innovative, Functional and Aesthetic**

**The Design**

Designer Isabel Heubl developed Integrale with great empathy. She did so after extensive studies into the circumstances and lifestyles of people with gripping difficulties. Integrale combines exceptional design with outstanding functionality.

**The Aesthetics**

The elegant, graceful design is based on classical cutlery shapes. It looks like normal cutlery, but with a slight twist: it enables those who require assistance to eat without difficulty.

**The Quality**

Integrale is an addition to the Amefa cutlery series. It is produced from the finest quality 18/10 stainless steel, which ensures durability, an elegant patina, and lasting performance. Integrale is also dishwasher safe.

**The Function**

The bullet-shaped handle fits perfectly into the palm of the hand, making it easy to hold.

1. The flattened top of the blade facilitates applying pressure when cutting.
2. The lean transition from handle to bowl enables holding in multiple positions.
3. The light curve at the edge of the blade enables a rocking motion when cutting.
4. The elevated handle makes it easy to pick up the cutlery from flat surfaces.
5. The flattened bottom of the handle ensures the cutlery remains in place.

# SCHOTT ZWIESEL

For many years, Schott Zwiesel has been setting standards with modern products. They are the worldwide market leader among experienced manufacturers of crystal glassware. They supply to sommeliers, wine makers, internationally acclaimed chefs and top hotels in over 120 countries. Schott Zwiesel backs up their proven track record with sustainable, innovative products. They create timelessly modern designs and excellent applications for crystal glassware that reflect the latest trends, and come to life with Zwiesel Kristallglas.

**TRITAN®  
PROTECT**

The line features double the protection against stem breakage compared to conventional glasses. The specially tempered surface protects the glass against scratches and increases strength and durability.

- Made in Germany
- Lead-free crystal glassware: exceptional clarity and perfect form
- Environmentally friendly production: low carbon footprint
- Superior dishwasher resistance

Discrete effervescent points which are laser etched at the inside base of the bowl to improve the presentation and longevity of the bubble stream. These points help to encourage the gas to separate at the base of the bowl, which in turn causes the bubbles to spiral upwards through the full length of the wine in the glass.

*by* **VICRILA**

Since 1890, Vicrila has been working with state-of-the-art quality methods and tools to bring to the hospitality industry glasses suited for every type of use. A full range of customer demands can be met through the Vicrila range, including a tempered glassware selection.

**FULLY  
TEMPERED**  
EXTRA RESISTANT  
UP TO **5** USEFUL LIFE

The section of tempered glassware offers up to five times extra resistance to shock and is also able to resist sudden temperate changes without risk of breakage.

Legislative requirements now restrict some venues to tempered glassware only. Please check with your local authority for requirements.

With a commitment of minimising our global carbon footprint, **Trenton International** has contributed to the **10 Thousand Trees** initiative to make paper a sustainable resource. In doing so, **10 Thousand Trees** will plant trees this year on our behalf, manage them to maturity, harvest them to be used as environmentally friendly paper, and then reinvest the profits from that sale back into more trees. By increasing the supply of Australian trees we are contributing to a program that ensures the safety of old growth forests and contributes to a sustainable environment.
